

Rockfon® System Cross Reference Guide

Rockfon Ceiling System Cross Reference Guide

The Rockfon Ceiling System Cross Reference Guide is a tool provided to assist our customers in determining the appropriate Rockfon ceiling tile and grid when referencing to another manufacturer's ceiling products. These references should be used to determine suggestive products which can be compared to another manufacturer's products based on similar technical and performance attributes.

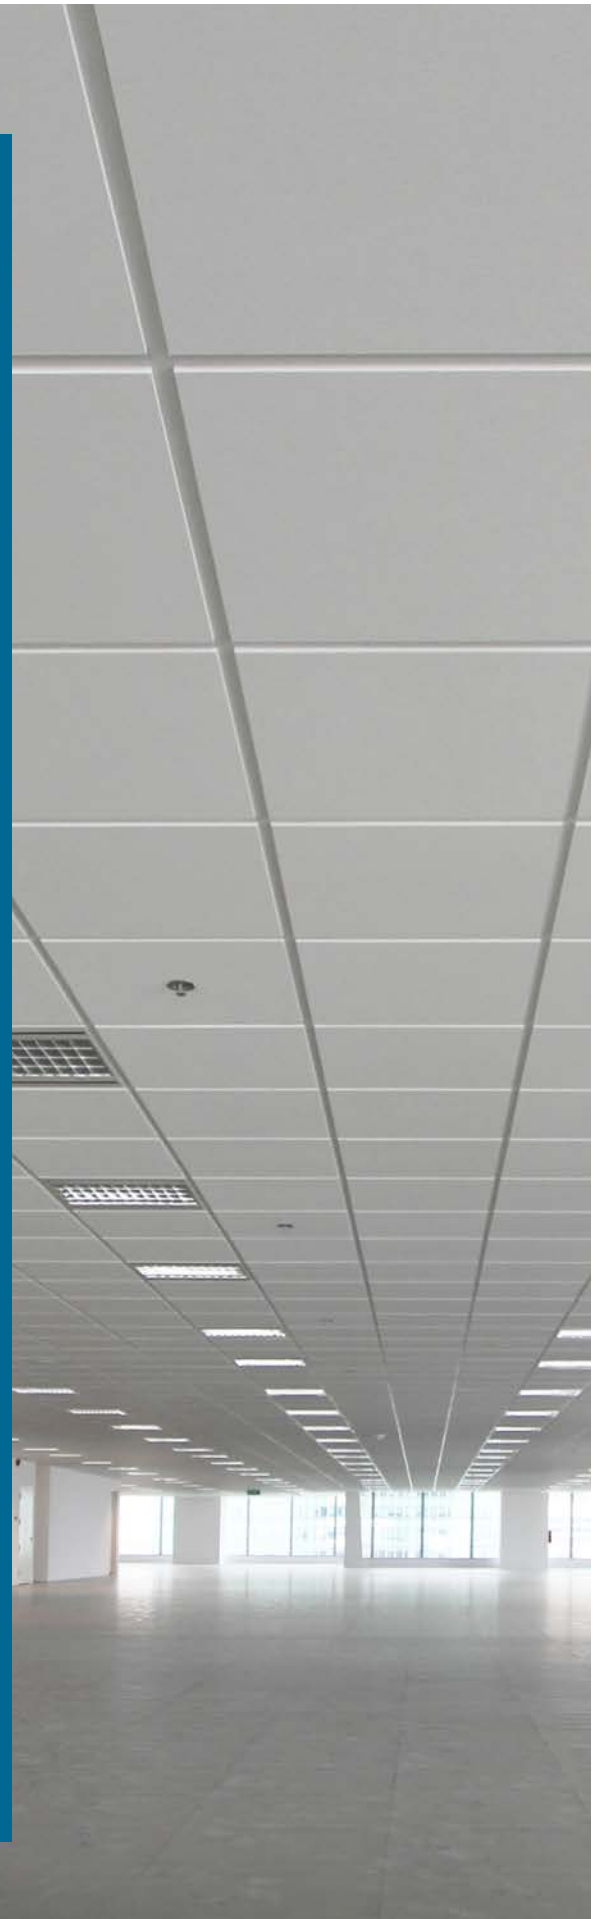

Each Rockfon product should be compared with the individual Rockfon product datasheet and alternative manufacturer's datasheet by the user of this guide to determine actual product equivalency.

In addition to this guide, Rockfon also produces many products which by nature of their performance, aesthetics and price advantages have no appropriate competitive cross reference. For more information on our products and those with proprietary benefits, please visit our website www.rockfon.com.

Rockfon assumes no responsibility for the accuracy of these references nor the accuracy of the competitive information within this reference.

Rockfon Alaska [®]	Rockfon [®] Koral [™]
Rockfon Alaska [®] dB	Rockfon [®] Medical Air [™]
Rockfon Artic [®]	Rockfon [®] Medical Plus [™]
Rockfon Cinema Black [™]	Rockfon [®] Medical Standard [™]

We believe our acoustic stone wool and metal solutions for ceilings and walls are a fast and simple way to create beautiful, comfortable and safe spaces.

Easy to install and durable, they protect people from noise and the spread of fire. They are our way of making a constructive contribution towards a sustainable future.

Create and Protect is what drives us. It means putting people first, sharing success and maintaining trust.

It's our rock-solid promise to you. At Rockfon, Create and Protect is what we do - and it's inspired by you.
